Islam Do We Know It

ACKNOWLEDGMENTS

I want to thank Allah God of Moses, Jesus and Muhammad for his helping me to write this Book.

INTRODUCTION

Majority of people around the world take the information about the Islam through political circumstances diffused in the mainstream Zionists Elites media.

The Islam as sent from God has a one and only face which you can discover it through this Book.

1 .DEFINITION OF ISLAM

Islam vocabulary is a translation from Arabic one which means “surrender to” the creator of you, all the humanity, all the creations on earth, on deepest oceans and on Universe who is Allah.

Islam means leave your life, your destiny and all your life orientations to this creator.

When you feels uncertain about anything in your life leave it to the creator because he knows the best for you and your family.

2 .ALLAH OR GOD

God is designed to the creator of all the universe and Allah is an Arabic vocabulary which gives the same meaning of God, so Allah for Muslims is God for Christians so it's the same. Allah is the common name known for all Muslims around the world, it's a name beside another ninety-nine names that Allah named itself by them.

So when you read or listen or see someone says Allah that's not means another God than the God of Jesus, he is the same God. So Allah is God and God is Allah.

3 .ASHAHADATAYNE

Ashahadatayne is an Arabic vocabulary if we translate it we'll find exactly : two testimonies.

The first testimony or Shahadah single of Shahadatayne is : There's not God but Allah or there's not Deity but Allah .In Arabic : La Ilaha Illa Allah.

That's means that there's one God or one Allah whose creates all the lifes froms on earth or universe .This is named : Unicity.

Allah is unique he hasn't wife or brother or sister or family or son or daughter .He is unique .There's a Chapter or Surat in Quran which describe the unicity of Allah or God named : Al-Ikhlās : Loyalty in Monotheism :

In the name of Allah, the Gracious, the Merciful.

- 1. Say, “He is Allah, the One.**
- 2. Allah, the Absolute.**
- 3. He begets not, nor was He begotten.**
- 4. And there is nothing comparable to Him.”**

There's also a verse or Aya which presents the degree of dangerousity of non believing in unicity or monotheism in God or Allah ,this verse is number 48 in Chapter or Surat 4 AN-NISA(Women):

48. Allah does not forgive association with Him, but He forgives anything less than that to whomever He wills. Whoever associates anything with Allah has devised a monstrous sin.

There's also Ahadiths(Narrations) in Sunnah Nabawya(all what prophet Muhammad peace be upon him said or did in his life) whose shows the gravity of association of God or Allah with anything or someone else :

From Abi sufiane, from Abi Jaber :

A man came to prophet Muhammad peace be upon him and he asked him : prophet of Allah what's the two obligations ?The prophet Muhammad peace be upon him said : whose died and didn't associates with Allah anything else he enter to paradise and whose died and associates with Allah anything else he enter to hell.

This hadith, single of Ahadiths is found in Sahih muslim and Bukhari which are two brave men whose collected all the narrations of prophet Muhammad peace be upon him from wives of prophet, from his companions, from all who watched and listened to prophet Muhammad peace be upon him.

The two books named "SAHIH" which means contains all the filtered and confirmed narrations thanks to an intelligent procedure.

So, God or Allah can forgive anyone for all his life sins with condition : be monotheist, believe in unicity of Allah.

The association of anything else differs from a culture to other there's peoples who associates with Allah or God cows, moon, sun, status which they made, etc.

In our contemporary world we found several peoples around the world that unfortunately don't believe in existence of God or his unicity, we found for example people who worships a statue and they thought that this statue contains a soul who helps them to contact God and make him satisfied about them.

You see, there's the beautiful faith in God but unfortunately they don't know the true

path .Why they don't know it ?Because they found their ancestors did this !So they do the same!

Islam came in the seventh century in Arabia desert and specifically in Mecca in Saudi Arabia today to make Arabians change the method of worshipping God or Allah and put in their hearts the unicity of Allah.

Arabians at that time, most of them, worshipped statues which they named Gods in different sides of life: God of love, God of dying, God of rain, etc.

4 .ISLAM & UNBELIEVERS

In contradiction with the most spread in international media, Islam don't denounce any other religion even it is a non God religion which is invented from humans and presented as a religion and she has followers from around the world.

Islam respect the choices of others to embraces any religion that they see as most suitable for them.

The Chapter or Surat “Disbelievers” number reveals this clearly :

In the name of Allah, the Gracious, the Merciful.

- 1. Say, “O disbelievers.**
- 2. I do not worship what you worship.**
- 3. Nor do you worship what I worship.**
- 4. Nor do I serve what you serve.**
- 5. Nor do you serve what I serve.**
- 6. You have your way, and I have my way.”**

This chapter speaks with disbelievers and in the same time gives instructions to Muslims to how see the others who are in contradiction with their faith.

Everyone is free about his beliefs, his choices, his religion and his faith.

It's forbidden to oblige anyone to embrace islam or to believe in it :

256. There shall be no compulsion in religion; the right way has become distinct from the wrong way. Whoever renounces evil and believes in Allah has grasped the most trustworthy handle; which does not break. Allah is Hearing and Knowing.

Another verses which are shows the tolerance of islam and his vision to others with their differences .A verse from the chapter or Surat number 49 named Alhujurat(chambers) with verse number 13 :

13. O people! We created you from a male and a female, and made you races and tribes, that you may know one another. The best among you in the sight of Allah is the most righteous. Allah is All-Knowing, Well-Experienced.

Allah, through this verse addresses all the peoples of the world by saying : O people he don't say O Muslims, so he didn't concern a religion or particular ethnicity.

The reproduction of human race or any other races is based on male and female and Allah put the sexual relation under the structure of marriage known in society to prevent the blood contamination.

made you races and tribes, it's not really an exact translation, the meaning in arabic is more expressive than the translation .Race means people like people of America, people of France, people of Germany, people of Argentina, etc This is the exact meaning of vocabulary: races.

The noun tribes is addressed to peoples of seventh century in arabia, Saudi Arabia now when they lives in tribes, but this kind of social life style were known also in all the

world in USA with Indians tribes, Mexico with Inkas and Mayas tribes, in Europe with Germans, Byzantines, etc .This vocabulary is rich with the differences between peoples.

The rest of phrase is : that you may know one another , it will be more meaningful with knowing each others because this is clear cause for our creation and clear proof of the open status of islam to others.

Another Aya or Verse is the verse number 22 for the Surat Arroum(The Romans) with number of 30 :

22. And of His signs is the creation of the heavens and the earth, and the diversity of

your languages and colors. In this are signs for those who know.

This verse give a clear proof of tolerance of Islam through the declaration that one of the signs of existence of Allah or God is the miraculous differentiations in human colors and languages, there's no difference between black and white, yellow or Indian, there's no difference between English or French speaking persons for example, etc .We are created from one God who make us a beautiful mosaics which forms a beautiful image of life.

Unfortunately, the Islam is presented as an enemy to all the peoples especially the western world and this not for an innocent

target, is for the target of preparing the world to the presumed third world with Muslims countries through islamic terror, Iran nuclear program, etc .

The Zionists Elites or illuminatis works for decades to put this idea in the west through movies, TV series, magazines, News with main stream medias, internet, etc .This is doesn't denies that some Muslims, unfortunately, misunderstood the real core of Quran and Islam .

5 .ALMALAIKA(ANGELS)

Almalaika or Angels are creations from Allah or God .They are created from “Noor” which means pure light.

They have a higher rank than humans or Jinns except the prophets.
