

ORO the Magician  
**A Better Future**  
by Fernand Wiser

## **Who is Oro ?**

Oro for a Better World will return with more ideas to share. May his "poems" bring you comfort in these challenging and uncertain times. But like Oro, we remain positive and believe that human ingenuity can illuminate the path to a brighter and more promising future. In the face of adversity, we hold onto the hope that our collective creativity, resilience, and determination will prevail, guiding us towards a world that is not just better but also more harmonious and compassionate. Oro symbolizes our unwavering commitment to making the world a better place, one idea at a time.
